TEBRA

EXTENDED PROFILE

OVERVIEW

Looking to harness the full power of the Tebra platform? Our practice success platform includes a certified electronic health record solution built to empower today's provider with robust clinical charting, streamlined documentation, telehealth, & more. Already have an EHR? That works too. Tebra integrates seamlessly with third-party products, meaning any practice can leverage our solutions. Tebra is the leading practice automation solution for independent practices.

Tebra was previously known as Kareo.

Tebra (Kareo Clinical EHR) helps independent practices build relationships with patients and provide them meaningful care. Tebra is designed for independent practices and aims to resolve the toughest administrative challenges they face with the use of their platform and integrated modules. Tebra can be used in a range of specialisms and provides a comprehensive list of functionalities, including a customizable dashboard, ePrescribing, and a fully-integrated patient portal.

Entirely cloud-based, Tebra runs through a browser and needs only a desktop computer or tablet with a high-speed broadband connection to operate. The software supports a built-in voice recognition program on iOS devices, with a dictation module available for purchase separately.

FEATURE OVERVIEW

- ✔ Patient Demographics
- ✔ Patient Portal
- ✔ Scheduling
- ✔ Appointment Management
- ✔ Billing Management
- ✔ Medical Templates
- ✔ Document Management
- ✔ Clinical Workflow
- ✔ EM Coding

Olivia, thank you for your question. Happy to help
you, what service did you have questions about?

11:42 AM
Thank you for the quick response! My question is:
How are thyroid problems diagnosed and treated?
